

UTSAV SHRESTHA

Aspiring Cybersecurity Intern • Full-Stack Developer • CS Undergraduate

Kathmandu, Nepal | +977 9862279973 | utsavstha033@gmail.com | utsavshrestha101.com.np | GitHub: Uts4v

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience securing and testing production web applications, REST APIs, and network infrastructure. Trained in ethical hacking fundamentals, OWASP Top 10, and VLAN/firewall architecture, with practical exposure to JWT authentication, access-control verification, rate-limiting defenses, and Row-Level Security debugging in live systems. Comfortable auditing a system end-to-end, reproducing an issue, and confirming the fix with real data rather than assumptions. Seeking a Cybersecurity internship to build on this foundation with formal security tooling and methodology.

TECHNICAL SKILLS

Security & QA: OWASP Top 10, Ethical Hacking Fundamentals, Network Security, Access Control (RBAC/RLS), JWT Auth, Rate-Limiting & Abuse Prevention

Networking: Cisco Packet Tracer, VLAN Segmentation & Architecture, Static IP & Firewall Rule Design

Cloud & DevOps: Docker, Linux, CI/CD Pipelines, Git, GitHub, n8n

Languages & Frameworks: Python, PHP, JavaScript, SQL, Bash · Django, Laravel (MVC), Bootstrap, AJAX, Next.js

Databases & Monitoring: MySQL, PostgreSQL, Supabase (RLS policies), Grafana, Google Analytics, Search Console

PROFESSIONAL EXPERIENCE

SEO Specialist | Nepal Tea Exchange & Danfé Tea Nepal

Mar 2025 – Apr 2026

- Ran systematic technical audits across two e-commerce sites — a checklist-driven process directly analogous to security audit methodology — covering crawl errors, page-speed diagnostics, and mobile responsiveness.
- Verified every fix with before/after data and manually tested storefront pages across devices/browsers; translated findings into clear reports — a habit directly transferable to vulnerability/incident reporting.

Graphic Designer & Video Editor | Sangraha Events

Feb 2024 – Jan 2025

- Produced deliverables against deadlines with minimal direct supervision for an international client, maintaining consistent quality control across every asset.

SECURITY-RELEVANT PROJECTS

Zentro Glow — Loyalty & POS Platform

React · Django REST Framework · PostgreSQL · WebSockets · Supabase

- Built and tested JWT-based authentication and role-based access control across customer, merchant, and POS applications, verifying that access boundaries held after connectivity loss and reconnection.
- Diagnosed and resolved a Supabase Row-Level Security infinite-recursion vulnerability and fixed an OAuth role-assignment bug that could mis-grant merchant privileges.

github.com/Uts4v/Zentro_globe

Rate-Limited URL Shortener & Analytics Platform

Django · SQLite · JavaScript · Docker

- Built and manually tested custom IP-based rate-limiting middleware as an abuse-prevention control, verifying enforcement under and beyond the 5-requests/minute threshold. Validated REST API responses against expected status codes/payloads; containerized with Docker Compose for a reproducible test environment.

github.com/Uts4v/Rate-Limited-URL-Shortener

Cisco Enterprise Network Design

- Cisco Packet Tracer · VLANs · Firewall Rules. Designed and tested an enterprise network topology with static IP addressing, firewall rules, and VLAN segmentation — verifying isolation between segments in simulation.

github.com/Uts4v/Cisco-Network-Design

Bhaabya — Event Management & Ticketing Platform

- PHP · MySQL · MVC · AJAX · Google OAuth. Implemented Google OAuth login and tested concurrent booking scenarios to prevent race-condition double-booking of seats.

github.com/Uts4v/Vabya

ADDITIONAL PROJECTS

- n8n Automation Ecosystem — data-validation steps to catch malformed/missing data before the warehouse; Grafana dashboard for spot-checks. Stock Management System (Django) — tested inventory logic against zero-stock and simultaneous-adjustment edge cases.

EDUCATION

Bachelor of Computer Science (BCS) Jan 2023 – Present

IIMS College (affiliated with Taylor's University) — Currently in 4th Year (Semester 7)

CERTIFICATIONS & TRAINING

Ethical Hacking — Broadway Infosys	2024–2025
AWS Cloud Essentials — Amazon Web Services (AWS)	2023
Cisco Networking Essentials — Cisco	2023
MySQL Course · Design & Web Training — Oracle / DIT Solution, Kathmandu	2022
